A DAY IN THE LIFE OF A PHYSICAL COMPLIANCE MANAGEMENT SYSTEM

| E-Book

HI THERE!

My name is Command Center,
and I am a fully integrated
grab-and-go solution designed
to support mobile workers in
successfully executing all of
the day-to-day operating tasks
necessary to ensure
compliance and optimize
operations.

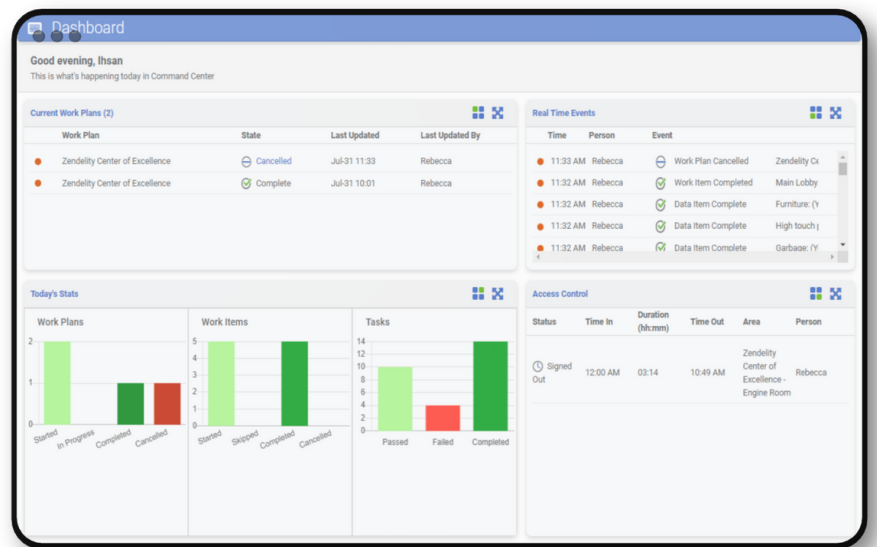

I help businesses and
institutions that still rely on
manual paper reporting in their operations in
upgrading their physical compliance and leveraging
new innovative tools to make their roles easier, their
operations more efficient, and their properties as
safe as they can be!

But most importantly,
I'm the future of physical compliance management,
and this is my story

MEET THE TEAM

First things first, let me introduce you to my 2 friends that help me run the whole show:

Mobile Application

Enables mobile workers to:

- follow standardized physical operating procedures
- eliminate the paperwork with NFC scans for compliance reporting
- record compliance data on the go and highlight issues based on operating policies.

Web Portal Application

Enables managers to:

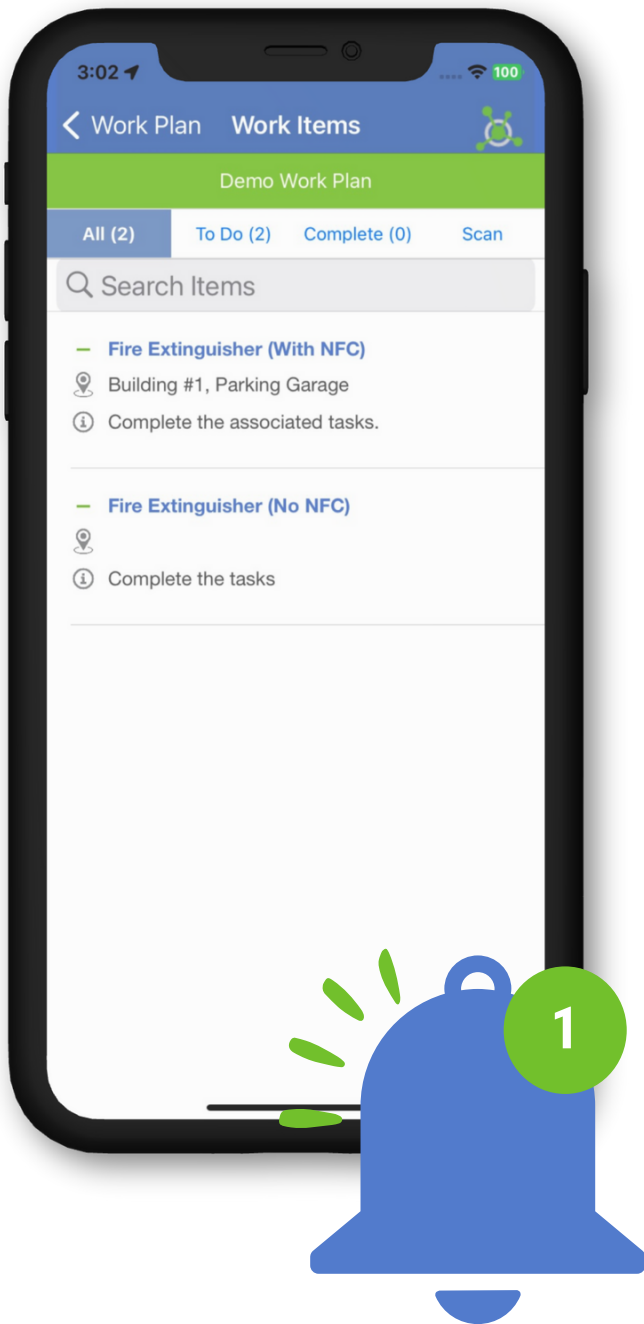

- Track, monitor, and manage all workplans and procedures in real-time
- Get automatically alerted of issues of non-compliance to improve response time
- Maintain full situational awareness over safety assets and routines
- Easily analyze physical compliance data to identify trends, optimize operations, and be confident of compliance

**SO WHAT DOES A
DAY IN THE LIFE
OF A DIGITAL
SYSTEM FOR
PHYSICAL
COMPLIANCE
MANAGEMENT
LOOK LIKE?**

PART ONE ASSIGN THE WORKPLAN

Tailored Procedures. 24/7.

All my workplans can be assigned to an individual or a team and set up run in sequence or ad-hoc, but no matter what I'll make sure your mobile worker is aware of exactly what procedures need to be completed and they are in the right location at the right time to get the job done (as we all know some assets can be hard to find).

THE PERKS OF DIGITAL

- Never miss a procedure again! 🔥
- Find the assets in undisclosed / hard-to-find locations 🔥
- Save on paper and contribute to your climate action initiatives 🔥

PART TWO COLLECT YOUR DATA

Just Tap, Fill Out, & Go!

Using your handy dandy smartphone, just open the pre-set workplan you wish to complete, digitally record all the necessary data or notes regarding the procedure, then scan the NFC tag to verify it's been completed. That's it!

THE PERKS OF DIGITAL

Ensure the mobile worker collects all the required data to measure and manage compliance. 🔥

Eliminate the paper and ensure accurate data is captured and not lost between verifying it and entering it into the system for tracking. 🔥

Leverage digitally recorded insights for compliance and training 🔥

PART THREE IDENTIFY THE ISSUES

#	Status	Created	Modified	Issue
38	In Progress	Aug-02 10:17	Aug-02 10:22	Inspect the boiler - Sounds and Smells: Failed
37	Open	Aug-02 10:15	--	Monthly Fire Extinguisher Inspection: Report
36	Complete	Jul-31 10:01	Jul-31 10:06	Inspect the boiler - Sounds and Smells: Failed
35	Complete	Jul-31 10:01	Aug-02 10:16	Inspect the boiler - Boiler Pressure: Failed
34	Complete	Jul-31 10:01	Aug-02 10:15	Monthly Fire Extinguisher Inspection - Safety Pin: Failed
33	Open	Jul-31 10:01	--	Monthly Fire Extinguisher Inspection: Report
32	Complete	Jul-31 10:00	Jul-31 11:32	Main Lobby - Garbage: Failed
31	Complete	Jul-30 19:15	Jul-31 10:01	Inspect the boiler - Smoke: Failed
30	Open	Jul-30 19:14	--	Inspect the boiler - Sounds and Smells: Failed
29	Complete	Jul-30 19:14	Jul-31 10:01	Inspect the boiler - Liquid: Failed
28	Open	Jul-30 19:13	--	Main Lobby: Report

Ensure Compliance to the T.

To be in compliance we must identify the places of non-compliance and quickly fix it. My work plans are designed around your specific operating policies. As the mobile worker inputs the data, issues are automatically identified and reported so you can take immediate corrective action.

THE PERKS OF DIGITAL

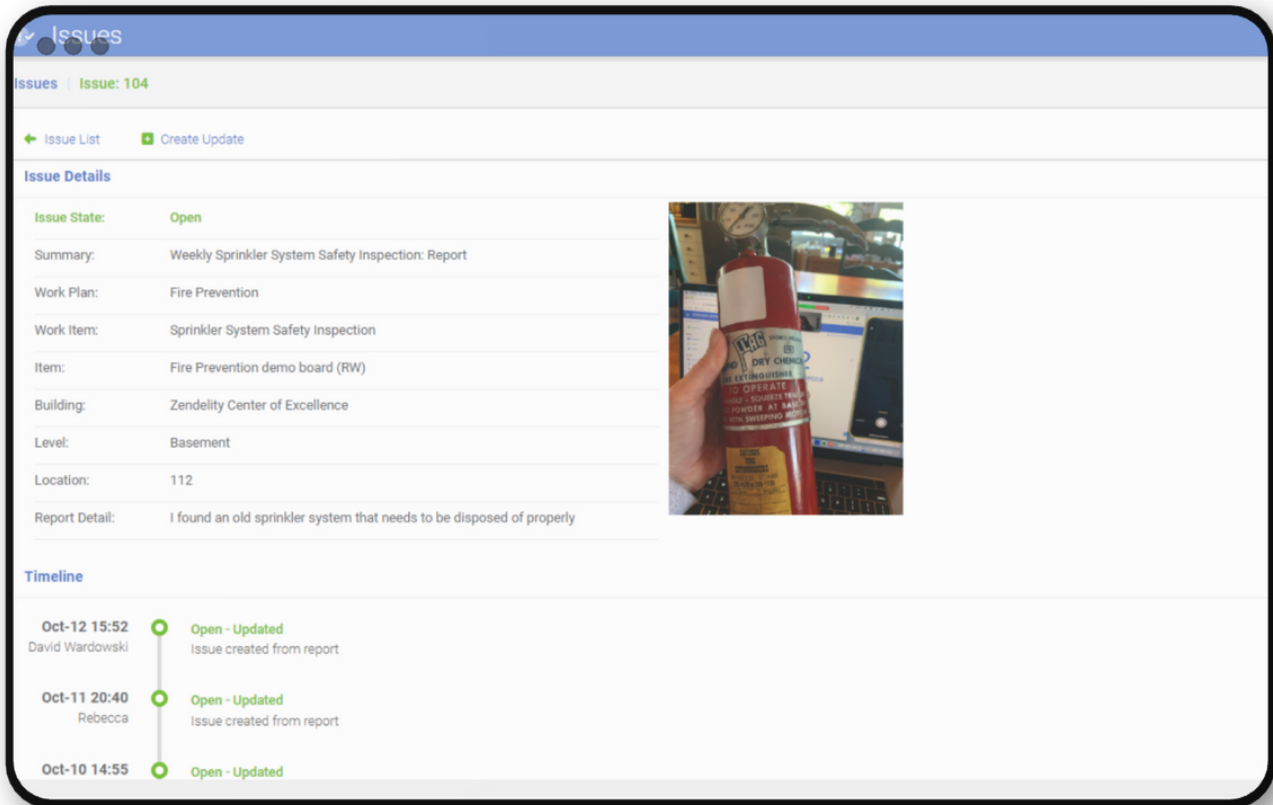

Take the guesswork out of compliance and automatically identify issues based on operating policies. 🔥

Ensure a speedy response time with real-time visibility of issues across departments and facilities. 🔥

Quickly pinpoint the root cause of an issue for improved efficiency 🔥

PART MANAGE TO FOUR COMPLETION

Track Progress in Real-Time.

For each issue, I'll create a full report in the web portal & mobile app, with detailed notes, pictures, and data entered by the mobile worker. As the issue is managed, its progress is tracked to ensure everyone is aligned and understands the state of the issue and what still needs to be done.

THE PERKS OF DIGITAL

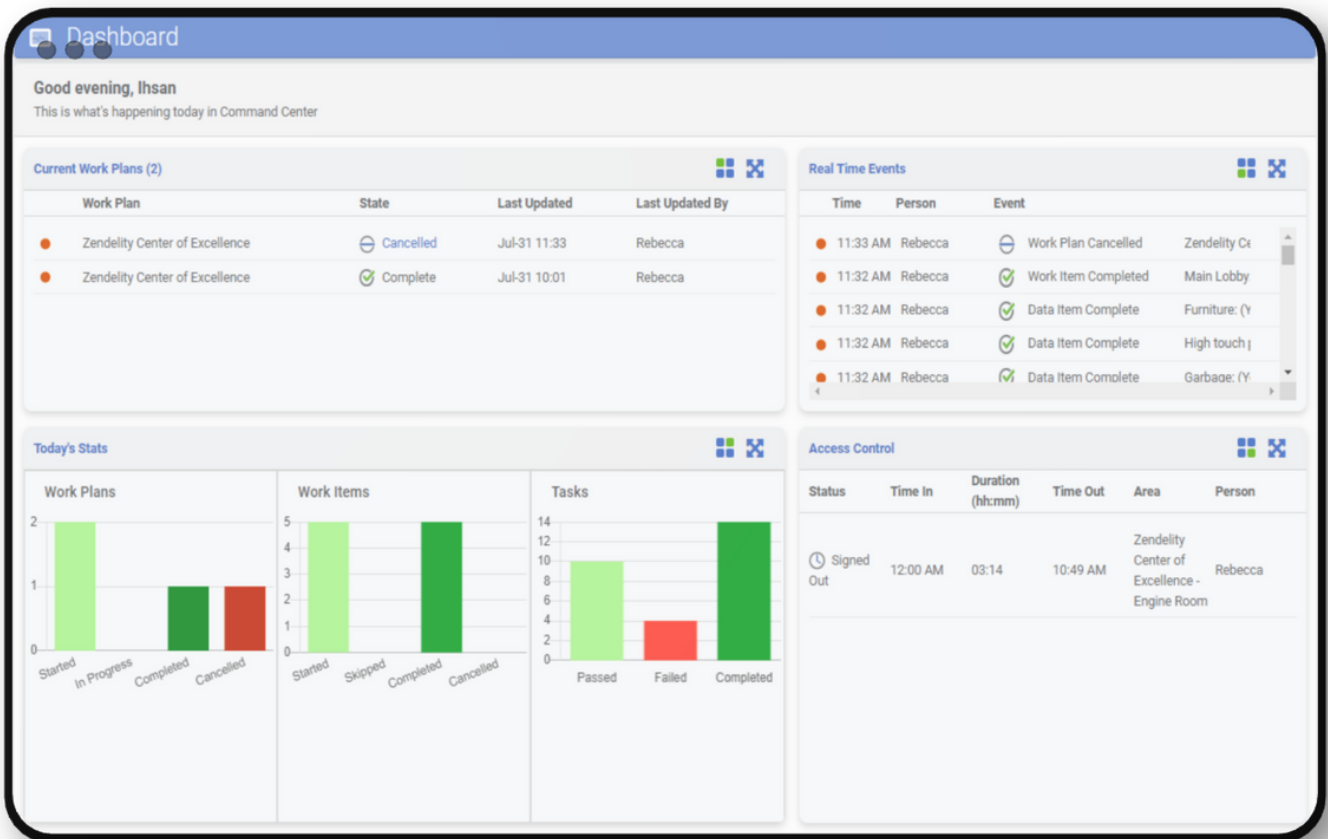

Save time with real-time visibility of issues and the progress to getting them fixed. 🔥

Ensure issues are not overlooked due to misunderstandings of the operating policy. 🔥

Easily access the data to report on compliance. 🔥

PART FIVE REAL-TIME DASHBOARD

Understand Your Operations

As work plans are completed by your workers, I display the data in real-time on your dashboard, giving you full situational awareness and instant visibility of exactly what has been done, what still needs to be done, and what issues need to be addressed to ensure compliance with operating policies.

THE PERKS OF DIGITAL

Highlights new issues as they are being identified for faster response time. 🔥

Easily dig into the data and understand the current details. 🔥

Provides visibility of what mobile works are currently doing to easily locate them. 🔥

PART SIX

GENERATE REPORTS

Reports | Multiple Work Plans

Back Download

Multiple Work Plans - Results From: Aug 01, 2023 12:00 PM to Aug 01, 2023

- Annual In Room Fire Place Inspection
There are no instances of this workplan between the selected dates.
- Zendelity Center of Excellence

Workplan Instances	Start:	End:	Complete:	Failed Items:
Complete	Aug 02 2023 14:13	Aug 02 2023 14:17	100%	1
Complete	Aug 13 2023 21:06	Aug 13 2023 21:08	100%	4
Work Items				
Inspect the boiler	Complete	Start:	End:	Failed Items:

Complete	Aug 15 2023 15:42	Aug 15 2023 15:51	100%	3

YES! The Inspector is here

Never fumble around for your compliance data ever again. Whether you need to verify compliance, insurance claims, or even work performed by 3rd parties, I've got your back with instant easy-to-build reports you can analyze and improve with.

THE PERKS OF DIGITAL

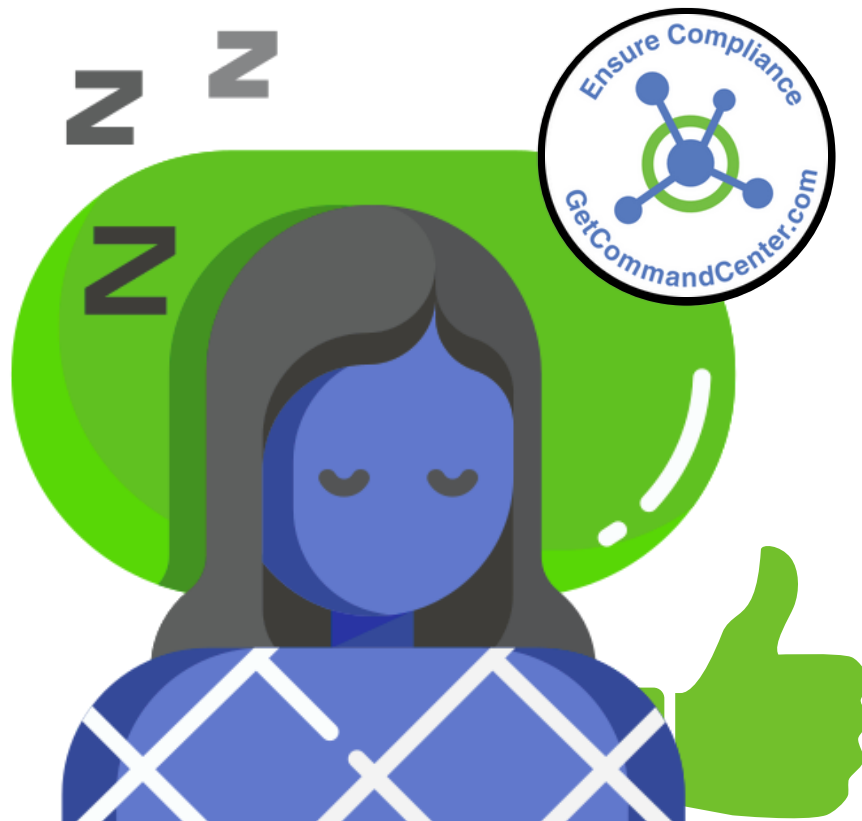

Pull up compliance reports before the inspector is even in the door 

Download reports to analyze trends and patterns in issues, 

Optimize routines, save costs and resources, and ensure operational excellence. 

PART FEEL SEVEN CONFIDENT

Get some Zen(delity)

knowing that everything has actually been done according to plan, where you stand with any active issues, and what is being done to fix them. There is nothing like going to bed knowing you have done everything possible to keep the people and the property safe!

THE PERKS OF DIGITAL

Confidence in compliance can ensure incident prevention and maximize stakeholder satisfaction 🔥

Minimize stress and stay on top of your compliance lifecycle. 🔥

WASN'T THAT SO EASY?

By digitally transforming your physical compliance management procedures, operations become a whole lot easier to manage, more efficient, and much safer. But a day in the life with Command Center, gives you so much more:

The assurance that procedures and policies are being followed to protect lives and prevent incidents.

Easy access to the data for data-driven discussions with key stakeholders.

Your time back. Get up and running quickly, and free up time to invest in other valuable projects to improve operations.

I had so much fun showing you everything I do in a day, and with a manager like you powering me, the sky's the limit to how much we can accomplish together!
